PHOTOGRAPHIC INTELLIGENCE MEMORANDUM
MOLLAR ENGINEERING WORKS SHANGHAI, CHINA

This report presents the results of photo analysis of the area known as Mollar Engineering Works, Shanghai, China (31°16'N-121°34'E). The analysis is based on photography exposed on [REDACTED] and 25X1D therefore reflects only the status of the plant as of that date. There were few indications at that time of any of the subsequently reported construction of plant facilities.

The Mollar Engineering works is located on the East Bank of the Kuang-pu-Chiang and is bounded on the North by Hsikou Creek. The plant area is approximately 300 yds long and 400 yds in width, and is enclosed on the river and creek bank sides by a concrete flood wall. For additional detail see map, Annex 1 to this report.

Buildings in the plant area are shown on the attached map and their purpose and sizes are as follows:

<u>Bldg. No.</u>	<u>Purpose</u>	<u>Size</u>	25X1D
1	Boiler maker (Plate) shop	[REDACTED]	
2	Machine Shop	[REDACTED]	
3	Foundry	[REDACTED]	
4	Forge	190' X 85'	
5	Carpenter Shop	190' X 85'	
6	Left House (Reported used for Barracks)	150' X 75'	
7	Steam Boiler House	150' X 55'
